Borstar pipe grades—Approvals and Certifications

Borstar pipe grades comply with specifications according to ISO and EN standards on PE gas and water piping. This quality compliance is the reason for Borstar pipe grades being widely accepted and approved by end-users in many countries.

Compliance with type testing requirements prescribed in the ISO and EN standards, certified by accredited laboratories is as follows:

Meeting the pre-requisite of certification according to ISO and EN gas and water piping standards, Borstar pipe grades are widely accepted and approved by end-users, industry association and national approval bodies in many countries.
